

# Foam Pads

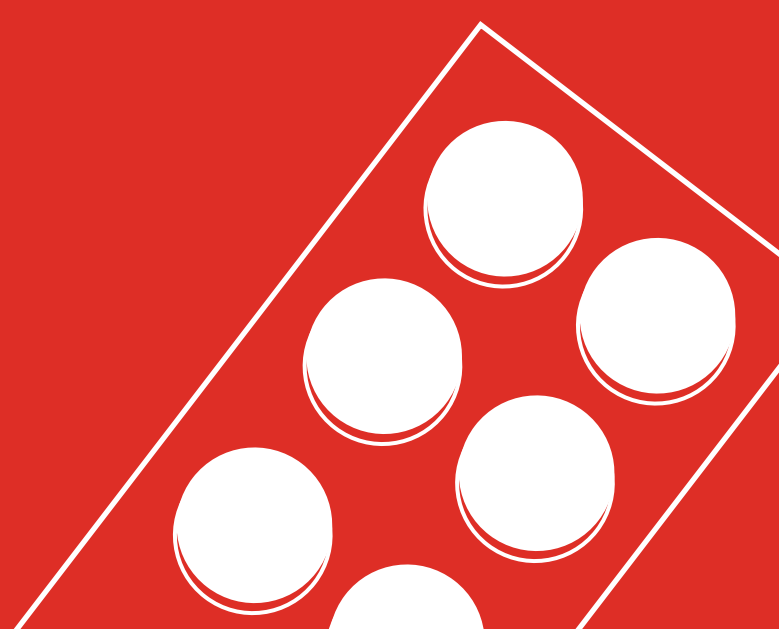

---

RGH have over 25 years of experience supplying and converting a range of high quality double-sided foam tapes. Whether you require foam tape on filmic release for automatic application or in sheet for easy application, please discuss your application with our sales team in order for them to recommend the ideal solution for your needs.

RGH have the capability to produce foam tapes in many formats including rolls, discs, pads, strips (of any length) and bespoke die cut components.

# Standard Pad & Disc Sizes Available

The following tables show some of the standard sizes available for foam pads and discs. There are many more sizes available so if you do not see the size that you require then please speak to a member of our sales team for further information. RGH can produce almost any size of pad from their extensive range of tooling but if the size that you need is not available then tooling can be purchased to manufacture bespoke components.

Standard Pad Sizes	Number of pads per roll
25mm x 25mm x 1mm thick	2000
25mm x 12mm x 1mm thick	4000
12mm x 12mm x 1mm thick	4000
25mm x 25mm x 2mm thick	1500
25mm x 12mm x 2mm thick	2000
12mm x 12mm x 2mm thick	2000
25mm x 25mm x 3mm thick	750
25mm x 12mm x 3mm thick	1000
12mm x 12mm x 3mm thick	1000
