

Giftwrap Hangers

As manufacturers of all of our products RGH have the flexibility to make giftwrap hangers in many formats for ease of application.

- High tack adhesive developed and tested in house
- Length, width and thickness can be altered to suit your requirements
- Manufactured on rolls or sheets to aid your distribution and application

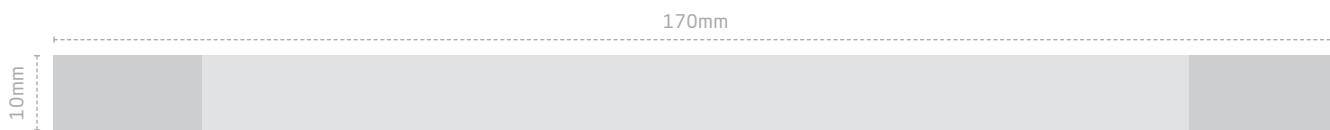

How do our giftwrap hangers work?

Remove the plastic adhesive strip from the release paper and apply either side of the hanger to the top of the rollwrap. This makes a loop which allows the rollwrap to be hung easily in store.
